Keith Garot & Venessa Willis

Keith Garot, owner and President of Landmark Real Estate & Development has been building homes, condos, apartments, hotels, and developing subdivisions for over 35 years. Our goal is to build every home to exceed customer expectations and leave every homeowner wanting to recommend us to their family and friends.

We do not consider any of our projects as a "building job." We think of it as much more than that - it is someone's HOME. Building you a dream home that you love, and also enjoying the process is our goal! Our referrals speak for us along with over 104 homes constructed from 2009-2010.

Landmark Real Estate & Development would like to thank all our subcontractors and suppliers for the great effort and quality craftsmanship.
